6. ☐ Interview Summary (PTO-413), Paper No./Mail Date \_\_\_\_
7. ☐ Examiner's Amendment/Comment
8. ☒ Examiner's Statement of Reasons for Allowance
9. ☐ Other \_\_\_\_

## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest an optical element having at least one transparent eye-protecting portion made from a plastic material with a hardness in a range between about 40 Shore A and about 77 Shore D, as measured according to ASTM Standard D2240 and an elongation at break in a range between about 200% and about 700%, as measured according to ASTM Standard D638.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Rice et al (US 4,818,801) teaches a contact lens which is a transparent eye-protecting optical element, but does not teach the mechanical parameters set forth in the independent claim.
